HIGH DENSITY LINE QUALITY

From our Breakthrough Head Drive Technology High Print resolution is achieved giving thick dense lines to Markers which enhance Cutting Table Time.

KEYPAD SELECTABLE SPEEDS

You can choose from 25,45 and 55 Sq/metres an hour throughput. The 25m²/h is ideal for very high accuracy CAD applications, where as the two higher speeds are ideal for making markers.

KEYPAD SELECTABLE LINE WIDTHS

Three Line width choices available via the Keypad with more available via Software Control.

HIGH POWER START-UP SELF CLEANING

High Power cleaning at start of Plotting ensures Inkjets are cleaned automatically by initial start-up sequence, ready for Plotting.

HIGH PERFORMANCE

The 55 Sq/Metres an Hour achieved from using just the one Ink-Jet Cartridge.

ECONOMICAL

High Quality Components and simple Design makes the **FASTJET PRO** easy and Low-Cost to support. Due to the exceptional speed obtained from driving the one Ink-Jet Cartridge Savings are achieved. Simple 'click-in click-out' Cartridge loading. Plus using Worldwide recognised Cartridge makes it easy to obtain and keeps Running and Maintenance costs to a minimum.

minimum amount of floor space and yet provides Maximum Performance. The Robust Metal Construction for heavy use with no weak plastic areas which can be damaged, cracked or broken. Designed for high Acceleration and low noise.

HIGH COMPATIBILITY & REMOTE PLOTTING

Compatible with vast range of Marker Making & Grading Software and even provides the opportunity to 'Plot Remote' via the internet. Our 'Show-It & Plot-It' File Conversion Software is supplied free with each Unit and enables files from many different Programs & 'Closed Systems' to be plotted direct or via the Internet.
